SUMMARY

Computer Science (AI & ML) undergraduate with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and full-stack web development. Built full-stack applications using Node.js, Express.js, and MongoDB with REST APIs, authentication, and database design. Seeking a Software Engineering Internship to apply strong problem-solving and software engineering skills.

EXPERIENCE

CodSoft – Web Developer Intern

06/2024–07/2024

- Developed responsive web applications using HTML, CSS, and JavaScript with a focus on clean UI and cross-device compatibility.
- Developed interactive frontend features using DOM manipulation, event handling, and client-side form validation.
- Developed multiple frontend projects, including a portfolio website, product landing page, and calculator, while using Git for version control and collaborative development practices.

PROJECTS

Wanderlust – Property Listings Web App [\[GitHub\]](#) [\[Live\]](#)

Node.js | Express.js | MongoDB | EJS | Passport.js | Cloudinary

- Developed a full-stack property listing platform with complete CRUD operations using Node.js, Express.js, and MongoDB following the MVC architecture.
- Implemented secure authentication, authorization, and session management using Passport.js, along with Cloudinary integration for image uploads and storage.
- Designed RESTful APIs with server-side validation, error handling, and optimized database operations to improve application reliability and performance.

AutoPUC – On-Demand Vehicle PUC Booking Platform [\[GitHub\]](#)

Node.js | Express.js | MongoDB | EJS | Passport.js | SMSGate

- Developed a full-stack on-demand PUC booking platform that enables users to book PUC checkers for vehicle inspections at their preferred location.
- Implemented secure role-based authentication with OTP verification, session management, and protected routes using Passport.js.
- Built an appointment booking workflow and dedicated checker dashboard to manage bookings and track earnings for assigned service locations.

EDUCATION

B. Tech in Computer Science (AI & ML)

COER University, Roorkee | CGPA: 8.71/10 | Expected Graduation: 2027

XII (CBSE), The Oxford School, Haridwar (77.8%)

04/2022 – 03/2023

SKILLS

Languages: C, C++, JavaScript

Frontend: HTML, CSS, Bootstrap, Tailwind, React

Backend: Node.js, Express.js, REST APIs, MVC Architecture, Authentication (Passport.js)

Databases: MySQL, MongoDB, Database Design

Core CS: Data Structures, Algorithms, Object-Oriented Programming, Operating Systems, DBMS

Tools & Platforms: Visual Studio Code, Git, GitHub, Postman, Hoppscotch, Cloudinary

Cloud: Render

ACHIEVEMENTS

- 1st Place, COER University Hackathon
- Solved 100+ DSA problems on LeetCode
- 5★ Gold Badge in Java on HackerRank
